THE BOXES

Each box is identified by a number, that corresponds to its size. This number is used to find out the number of studs occupied by a box in the case.

▶ **203** = 2 x 3 = **6**
Box number studs studs studs

INFINITELY REUSABLE

From the kitchen, to the garage, through the workshop or children's rooms, ESSBOX boxes are useful everyday!

Thanks to food grade PP, ESSBOX boxes are reusable for food storage or transport and are even resistant to cold

**INFINITELY
REUSABLE**

From the kitchen, to the garage, through the workshop or children's rooms, ESSBOX boxes are useful everyday!

ESSVE

GET IT DONE

WOOD
EXPERT
SINCE 1970
FROM
THE COLD

N°1 OF WOOD SCREWS IN SCANDINAVIA

Forest covers more than 60% of the Nordic countries, which is why wood construction is a pure Swedish tradition. ESSVE's Nordic heritage has been at the heart of its activity since its beginnings in 1970.

Today, ESSVE is the recognized expert in WOOD SCREWS and the leader in the Nordic markets. Close collaboration with construction professionals throughout the development processes ensures the bringing to market of high quality products, the foundations of the brand's success.

INFINITELY REUSABLE

From the kitchen, to the garage, through the workshop or children's rooms, ESSBOX boxes are useful everyday!

NEW

**BLISTERS
RANGE**

A RANGE DEDICATED TO HANDYMEN

Easy in-store installation, thanks to the european tie that can then be removed, to fit in the ESSBOX cases.

Quantities adapted to handymen needs.

Blisters adapted to ESSBOX System: stackable, cases compatible, resistant and reusable

111

112

113

114

116

THE BLISTERS

Each blister is identified by a number, that corresponds to its size. This number is used to find out the number of studs occupied by a box or blister in the case.

i.e. blister 112

$$112 = 2 \times 1 = 2 \text{ studs} \times 1 \text{ stud} = 2 \text{ studs}$$
